PENDULUM MACHINING, HIGHEST PRODUCTIVITY OF DOORS AND PANELS

Cargo
automatic loading and unloading system

**PATENTED FULLY AUTOMATED SOLUTION
THAT DOES NOT REQUIRE OPERATOR SUPERVISION**

Maximum positioning accuracy on the work table thanks to the panel pre-alignment system directly on the loading stack.

Two stations; one for loading and one for unloading, easily accessible even with a forklift truck.

Cargo's flexible arm allows the continuous loading and unloading of workpieces in masked time, while the machine carries out the processing in the opposite area.

Unrivalled ease of use: machine and Cargo system managed directly with Maestro active.
